

The Big Reshape Art Project

Falconbrook and Shaftesbury Park Primary Schools

Battersea

2026

I want to live in
a world that has
love and no war.

About The Big Reshape Art Project

The Big Reshape is a community-led programme, facilitated by Roots to Change, that aims to inspire positive action towards building a world where everyone feels safe, valued and celebrated.

The first step to creating a better world is to imagine it.

Since July 2023, we have been inviting children and adults to do just that and create art that brings their imagination to life.

In January 2026, we ran a series of art workshops at Shaftesbury Park and Falconbrook primary Schools in Battersea.

Using used cardboard, magazines and newspapers and a mix of papier-mâché and collage, the Year 4 and 5 children (aged 8 to 10) were guided to create boards depicting the kind of world they want to live in.

Their messages are clear:

No to violence, pollution and injustice | Yes, to peace, clean energy and fairness.

We also explored what we will do and what we want others to do to make the world a kinder place.

The artwork and the children's reflections were exhibited at Battersea and Battersea Park libraries and Battersea Arts Centre up until mid June.

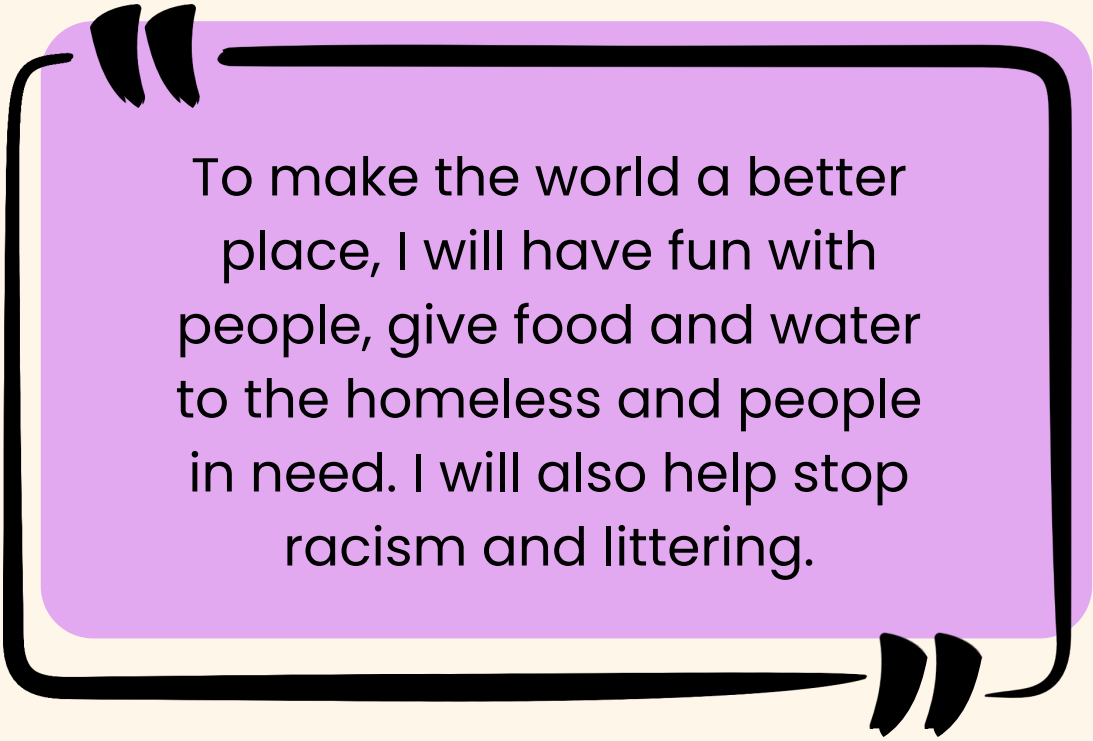

The 65 pieces of original artwork has been returned to the artists but we are delighted that their beautiful work can live on in this book.

We hope you enjoy it!

We would like to thank all the children who participated in the project and their teachers for helping to make it happen.

To make the world a better place, I will have fun with people, give food and water to the homeless and people in need. I will also help stop racism and littering.

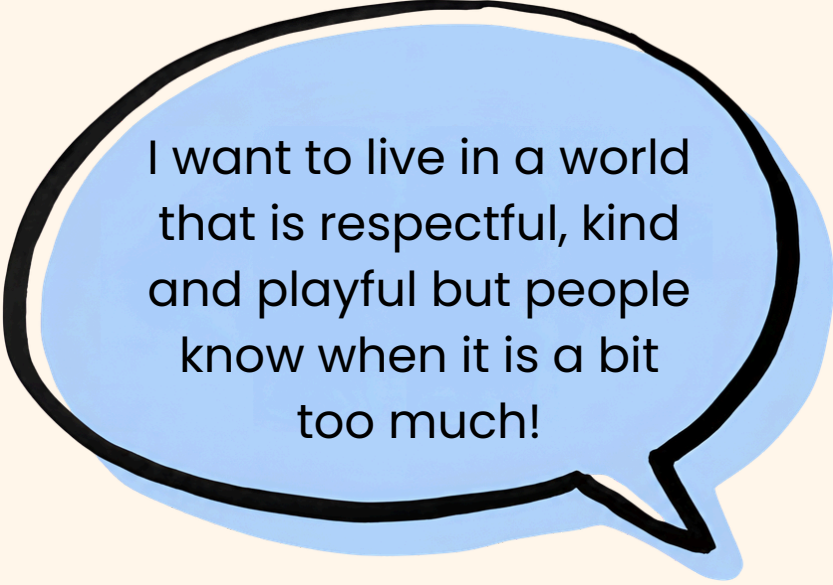

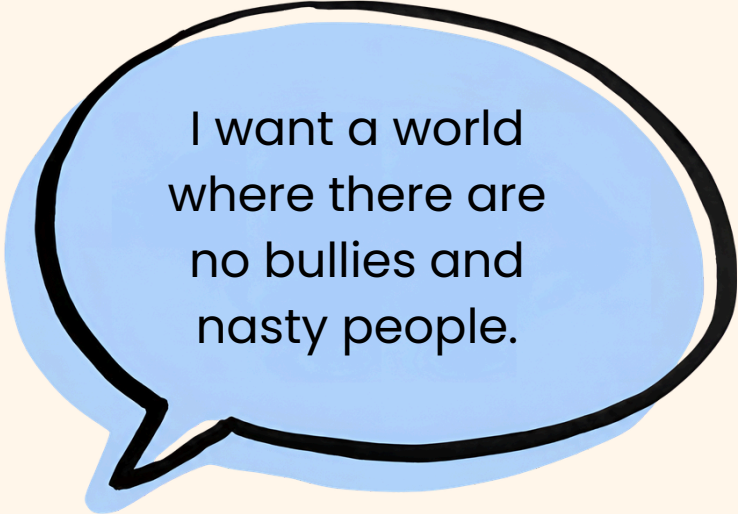

I want others to not litter in
the ocean, treat people
equally, stop fighting, always
listen when someone is
speaking and share.

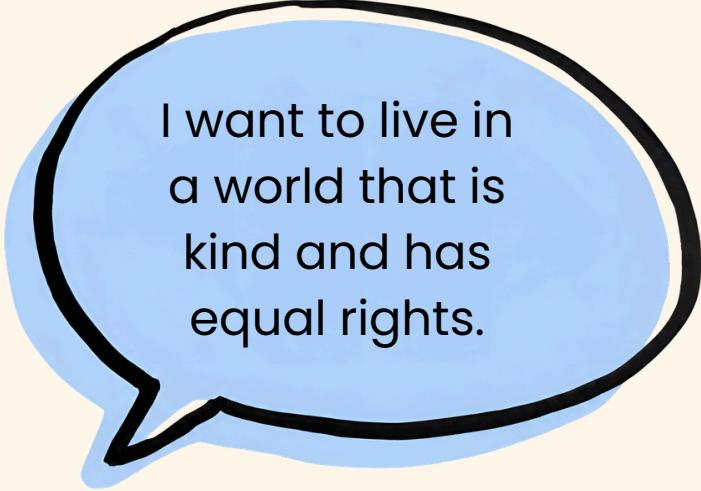

I want to live in a world
that is respectful, kind
and playful but people
know when it is a bit
too much!

I want a world
where there are
no bullies and
nasty people.

I want to live in
a world that is
kind and has
equal rights.

I want to live in a
world that has
fairness, kindness,
happiness, respect,
water and food.

To make the world a better place, I will help people and will help to treat them nice.

To make the world a better place, I will spread kindness and respect.

To make the world a better place, I will help keep the planet clean.

To make the world a better place, I will show kindness and promote peace.

I want others to get
along and treat
people equally.

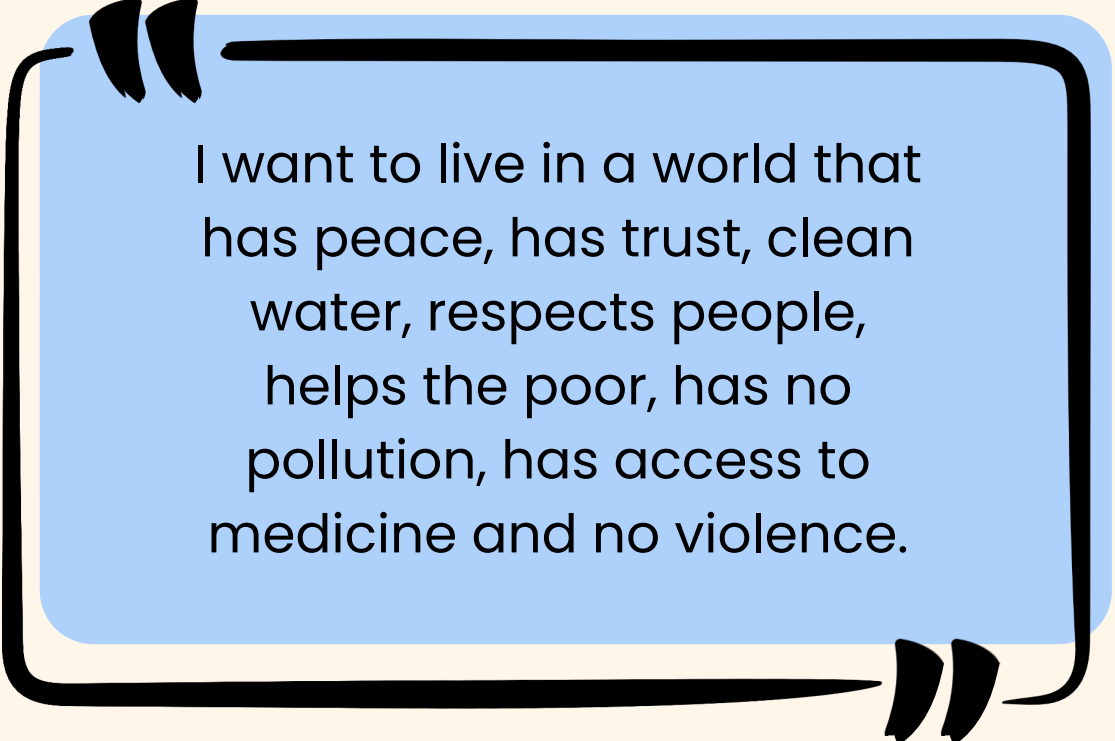

I want others to
be kind and fair.

I want others to
stop littering in the
sea.

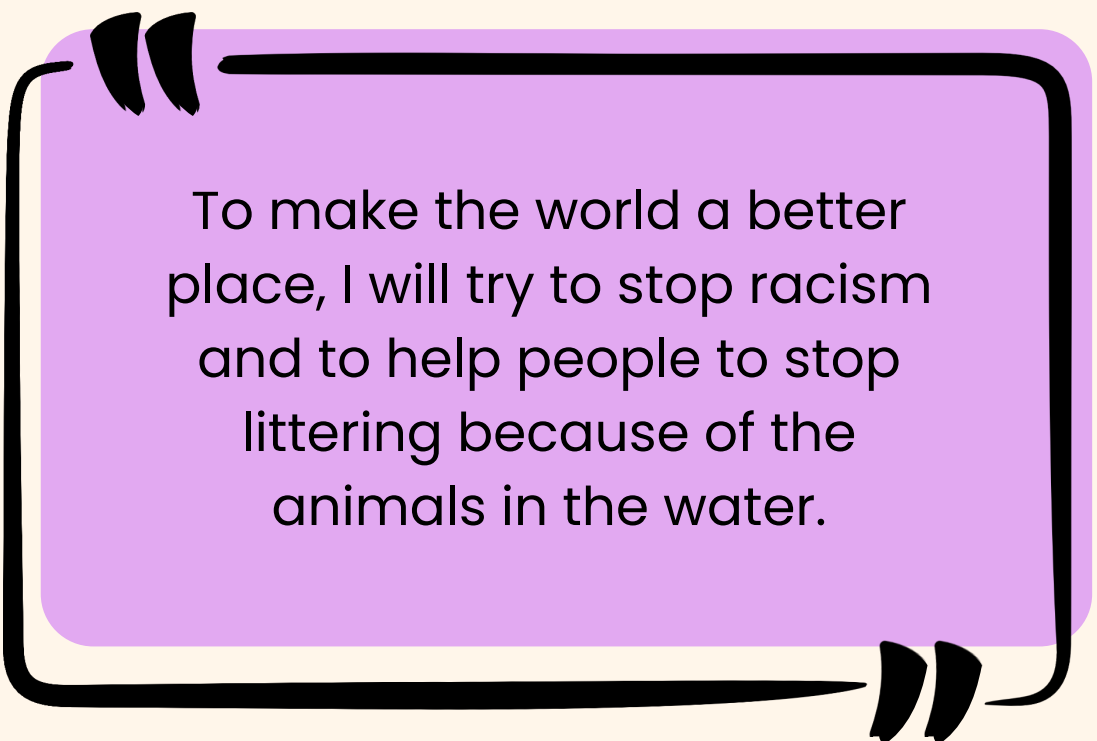

I want others to
show respect,
share, stop fighting
and not bully.

I want to live in a world that
has peace, has trust, clean
water, respects people,
helps the poor, has no
pollution, has access to
medicine and no violence.

To make the world a better place, I will try to stop racism and to help people to stop littering because of the animals in the water.

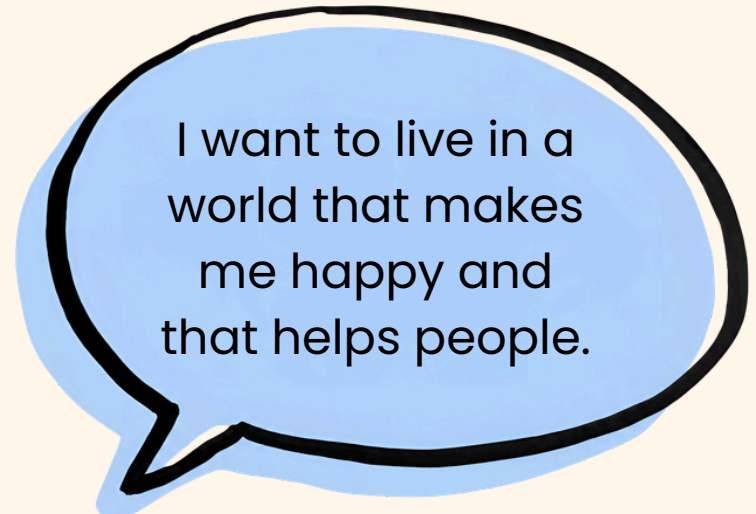

I want others to stop
fighting, share, treat
people equally, always
listen to each other and
stop littering.

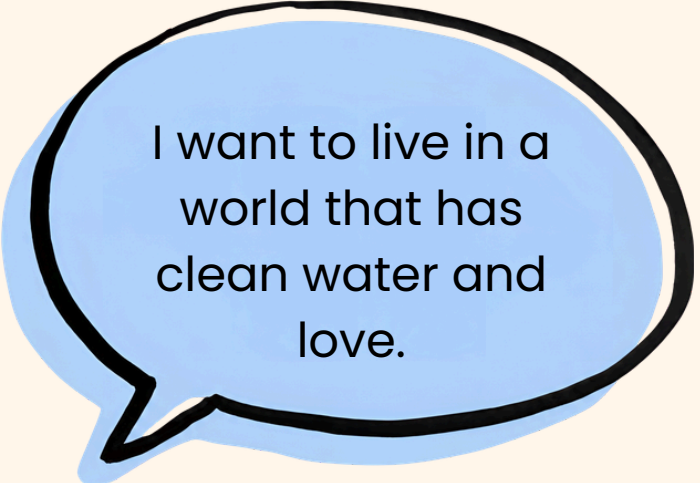

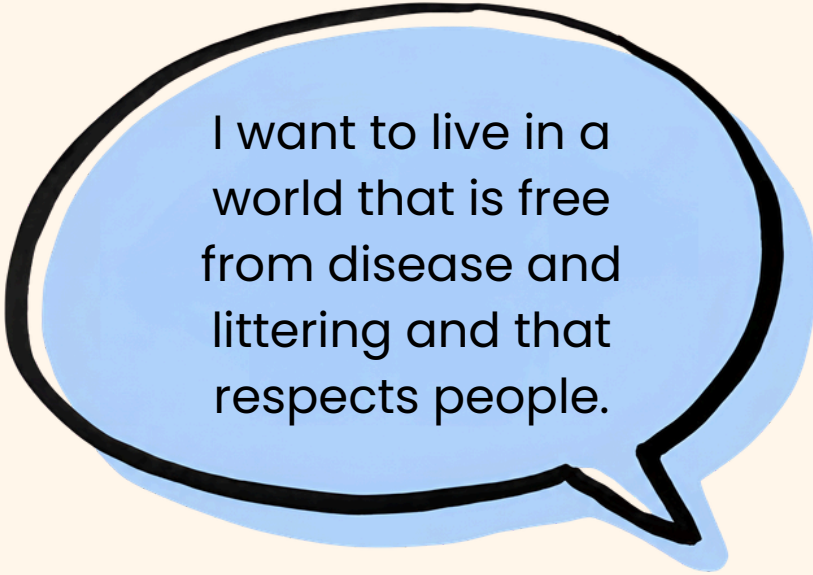

I want to live in a world that has no racism and where people share.

I want to live in a world that makes me happy and that helps people.

I want to live in a world that has clean water and love.

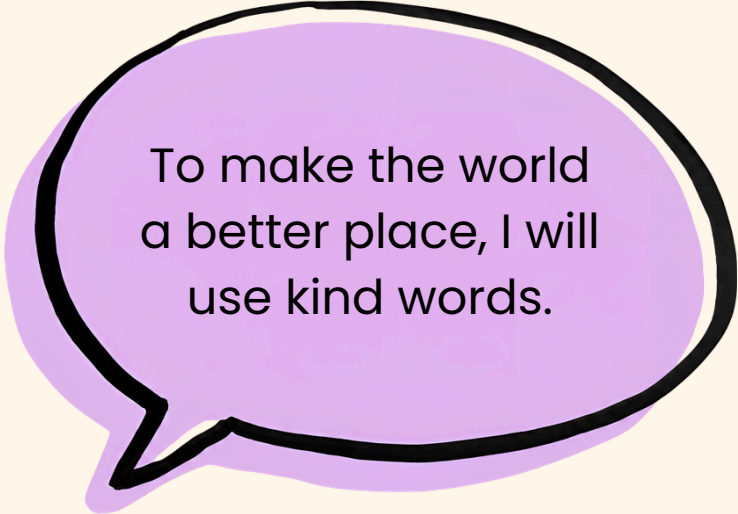

I want to live in a world that is free from disease and littering and that respects people.

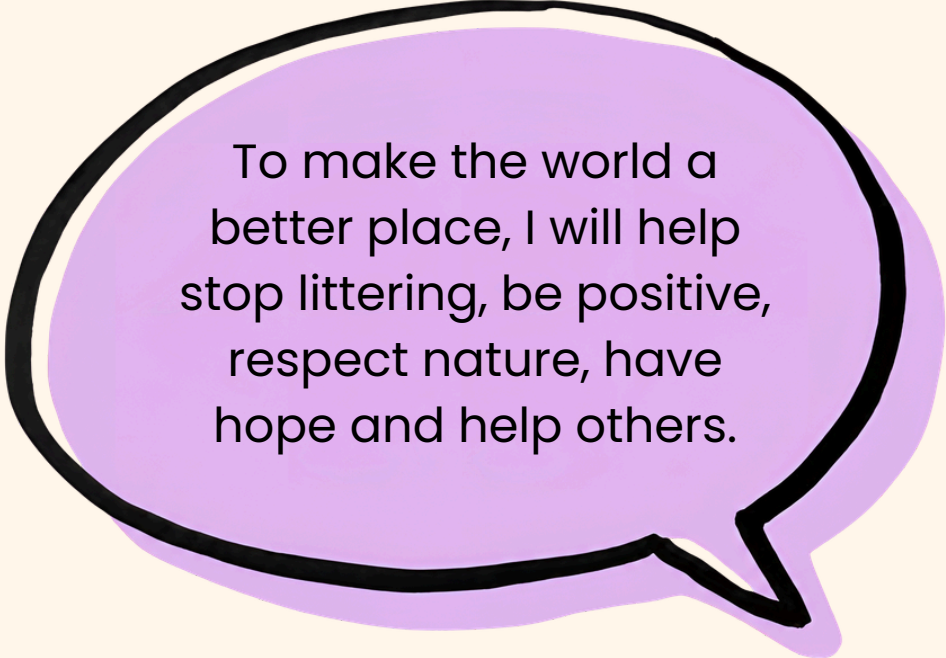

To make the world a better place, I will show my love for the planet.

To make the world a better place, I will use kind words.

To make the world a better place, I will love the earth.

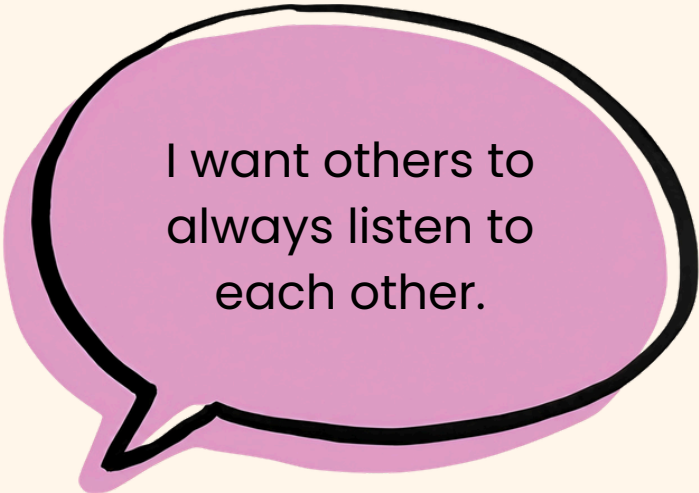

To make the world a better place, I will help stop littering, be positive, respect nature, have hope and help others.

I want others to be
grateful, stop
bullying and be kind.

I want girls and
boys to get along.

I want others to
always listen to
each other.

I want others to
respect the planet
and keep it clean.

The Big Reshape Art Project in Wandsworth is part funded by the Wimbledon Foundation Community Fund and The London Community Foundation and through a Tesco Stronger Starts grant.
